PROVISION OF: Rock Placement Services
BIDS Category: 9300; 9315
Reference: EOI FC11
Issue Date: March 26, 2013
Closing Date: April 9, 2013 1:00 pm Halifax local time.

Introduction

Encana Corporation is the owner and operator of the Deep Panuke natural gas project in Nova Scotia's offshore. The project involves the installation of the facilities required to produce natural gas from the Deep Panuke field, located approximately 175 kilometres offshore Nova Scotia. Natural gas from Deep Panuke will be processed offshore and transported, via subsea pipeline, to Goldboro, Nova Scotia for further transport to market via the Maritimes & Northeast Pipeline.

Encana is a leading North American energy producer that is focused on growing its strong portfolio of diverse resource plays producing natural gas, oil and natural gas liquids. By partnering with employees, community organizations and other businesses, Encana contributes to the strength and sustainability of the communities where it operates. Encana common shares trade on the Toronto and New York stock exchanges under the symbol ECA. Further information on Encana Corporation is available on the company's website, www.encana.com. Further information on Deep Panuke is available at www.encana.com/deeppanuke

Business Opportunities

Encana is committed to providing opportunities for Nova Scotian and Canadian companies through employment, procurement and contracting on an internationally competitive basis, with full and fair opportunity for Nova Scotians and Canadians, and first consideration to Nova Scotians where competitive on a best value basis. Companies who have been invited to tender will be required to complete a Canada-Nova Scotia Benefits Questionnaire, and demonstrate their commitment to and compliance with Encana's requirements regarding Canada-Nova Scotia Benefits, during the tender process.

Interested firms are requested to demonstrate their capabilities and experience via a formal response to this EOI and the Prequalification Questionnaire, which can be obtained from Encana at the address provided below.

Scope of Work

EnCana Corporation seeks qualified, experienced companies to provide rock placement services. The rock placement services will comprise the provision of rock and its subsequent placement around various subsea assets for scour protection services to a high level of accuracy. As a result, the rock placement will be required to be performed with a fall pipe system and include both pre and post surveys to confirm existing site conditions and final rock placement position.

The work is forecast to take place during late Q2, early Q3 2013.

Information Requested with EOI response

Respondents to this EOI are advised that the Work carried out on the Deep Panuke Project shall comply fully with Canada Nova Scotia Offshore Petroleum Board Regulations. Respondents must have a significant working knowledge and experience in working within an effective permit to work system and associated work procedures and practices.

EOI respondents are required to have an implemented Quality Management System that complies with the requirements of the ISO-9001 series of Standards (or equivalent) and Safety Management System(s).

Respondents must be able to demonstrate that proposed offshore construction methods, equipment and equipment availability are suitable for rock dumping activities specific to the Deep Panuke Project requirements and demonstrate previous experience on similar projects.

Encana will select qualified bidders using the responses to this EOI as a guide.

Any eventual list of Bidders will be posted on the Encana website and other industry websites such as BIDS Nova Scotia. Encana reserves the right to select more than one Contractor to execute the above Scope of Work.

Encana is under no obligation to proceed with a Request for Proposal as a result of this call for Expressions of Interest. Respondents that qualify will be invited to participate in the event Proposals are solicited.

Expressions of Interest must be received by post or email on or before April 9, 2013 1:00 PM Atlantic time.
