

DEEP PANUKE PROJECT

EXPRESSION OF INTEREST (EOI): Catering and Housekeeping Services

Bids Category: 9462, 9464

Package number: SBM NS 23 – Catering and Housekeeping Services

Issue date: 16 October 2013

Closing date: 30 October 2013

GENERAL

SBM Nova Scotia Contractors Inc. was awarded by Encana Corporation the Production Field Centre (PFC) Start Up and Operations Contract- for the Deep Panuke offshore gas development project.

The PFC, which contains all of the main facilities, is located approximately 250 km southeast of Halifax, Nova Scotia, Canada approximately 47 km west of Sable Island and in approximately 44 metres water depth.

The PFC will be capable of producing up to 8.5 x 106 m³/day (300 MMscfd) of natural gas from subsea wells. Each subsea well has its own dedicated flowline and umbilical. The Deep Panuke reservoir fluids contain H₂S and CO₂ which will be removed from the fluid stream during processing on the PFC and disposed of into a dedicated subsea acid gas injection well. The market ready processed gas is exported to shore via a single subsea pipeline with landfall close to Goldboro, Nova Scotia and onward interconnection with the Maritimes and Northeast Pipeline (M&NP) for markets in Canada and the United States. The subsea export pipeline is approximately 176 km in length.

SBM Nova Scotia Contractors Inc. is committed to providing opportunities for Nova Scotian and Canadian companies through employment, procurement and contracting on an internationally competitive basis, with full and fair opportunity for Nova Scotians and Canadians, and first consideration to Nova Scotians where competitive on a best value basis.

More details about SBM Nova Scotia Contractors Inc. are available on www.sbmdeeppanuke.com website.

SCOPE OF WORK

SBM Nova Scotia Contractors Inc. is seeking qualified companies for the supply of the following Scope of Work for its Production Field Centre as per the below listed requirements:

- Provision of catering and housekeeping crew trained to CAPP and regulatory standards for offshore Nova Scotia employment;
- Ensure the strictest and highest standards of hygiene, food sourcing, handling and preparation;
- Weekly fresh food and drinks supply for a steady POB of approximately 50 persons, with a maximum of 75 POB;
- Provision of three hot meals and work break snacks per day;
- Utensil, galley equipment and refrigerated container supply and maintenance;
- Provision of full laundry service; and
- Provision of full housekeeping service.

Respondents must demonstrate previous experience in providing this scope of work for an offshore installation located in Canada.

PROJECT SCHEDULE

A Request for Proposal (RFP) together with relevant specifications will be issued to a list of Bidders chosen from the responses to this EOI. Issue of the RFP and award of contract are expected in Q2 2014.

EXPRESSION OF INTEREST REQUIREMENTS

EOI respondents are required to have the following implemented (i) Documented Quality Management System (ii) Documented Safety Management System that complies with their respective national HSE regulation requirements. Respondents are also advised that the Work carried out on the Deep Panuke Project shall comply fully with Canada Nova Scotia Offshore Petroleum Board Regulations.

Interested firms are requested to demonstrate their capabilities and previous experience on similar size projects via a formal response to this EOI and the Prequalification Questionnaire, which can be obtained from BIDS Nova Scotia at the address provided below.

SBM Nova Scotia Contractors Inc. will select qualified bidders using the respondents to this EOI as a guide.

Pre-qualified companies will be required to complete a Canada–Nova Scotia Benefits Questionnaire, and demonstrate their commitment to and compliance with SBM requirements regarding Canada–Nova Scotia Benefits, during the tender process.

Expressions of Interest must be received on or before **October 28, 2013, 4:00pm AST.**

All inquiries and Expressions of Interest must be clearly marked with the EOI reference number and should be directed to:
