

DEEP PANUKE

EXPRESSION OF INTEREST (EOI): VALVE SERVICES

Bids Category: 9417

Package Number: SBM NS 30 – Valve Services

Issue Date: 08 May 2015

Closing Date: 22 May 2015

GENERAL

SBM Nova Scotia Contractors Inc. (SBM NS) operates the Production Field Centre (PFC) for the Deep Panuke field on behalf of Encana Corporation.

The PFC, which contains all of the main natural gas processing facilities, is located approximately 250 km southeast of Halifax, Nova Scotia, Canada approximately 47 km west of Sable Island and in approximately 44 metres water depth.

The PFC is capable of producing up to 8.5 x 10⁶ m³/day (300 MMscfd) of natural gas from subsea wells. H₂S and CO₂ are removed from the fluid stream during processing with market ready gas exported to shore via a subsea pipeline. An interconnection with the Maritimes and Northeast Pipeline (M&NP) system transports the gas to markets in Canada and the United States.

SBM NS is committed to providing opportunities for Nova Scotian and Canadian companies through employment, procurement and contracting on an internationally competitive basis, with full and fair opportunity for Nova Scotians and Canadians, and first consideration to Nova Scotians where competitive on a best value basis.

More details about SBM NS are available on www.sbmdeeppanuke.com website. More information on Deep Panuke is available at www.encana.com/deeppanuke

SCOPE OF WORK

Valve Services

SBM NS is seeking qualified companies for the provision of Valve Services for its Deep Panuke Production Field Center (PFC). Respondents should provide information to show their ability to provide:

- Calibration/Recertification of Pressure Safety Valves (PSV's) from ¼" diameter to 8" diameter;
- Pressures between .07 Bar and 375 Bar, in liquid and gas service;
- Calibration certification documentation and record keeping;
- Onshore shop facilities for performing Calibration/Recertification and repair services;
- Portable calibration bench which is hazardous area rated and certified for lifting offshore;
- Service and repair various valves, actuators and associated components including ABV, Redpoint, Bettis, Topworx and more;
- Certified Technicians for both onshore and offshore, including all API, CAPP and regulatory training; and

- Service valves which may contain H2S, hydrocarbon and other products typically found in offshore oil and gas production.

PROJECT SCHEDULE

A Request for Proposal (RFP) together with relevant specifications will be issued to a list of Bidders chosen from the responses to this EOI. Issue of the RFP and award of contract are expected by Q2 2015.

EXPRESSION OF INTEREST REQUIREMENTS

EOI respondents are required to have the following implemented (i) Documented Quality Management System and (ii) Documented Safety Management System that complies with their respective national HSE regulation requirements. Respondents are also advised that the Work carried out on Deep Panuke shall comply fully with Canada Nova Scotia Offshore Petroleum Board Regulations.

Interested firms are requested to demonstrate their capabilities and previous experience on similar size projects via a formal response to this EOI and the Prequalification Questionnaire, which are to be obtained from BIDS at the address provided below.

SBM NS will select qualified bidders using the respondents to this EOI as a guide.

Pre-qualified companies will be required to complete a Canada–Nova Scotia Benefits Questionnaire, and demonstrate their commitment to and compliance with SBM requirements regarding Canada–Nova Scotia Benefits, during the tender process.

Expressions of Interest must be received on or before **May 22, 2015, 4:00pm AST**.

All inquiries and Expressions of Interest must be clearly marked with the EOI reference number and should be directed to:
