

2025 Lobbying and Political Activity Report

The oil and natural gas industry in the U.S. and Canada plays an essential role in making modern life possible. Public policy and political discourse directly shape the future of oil and natural gas exploration and production in North America, which in turn supports our long-term strategy and value creation for shareholders and stakeholders. Companies, industries and governments engage in constructive public policy dialogue, regardless of political affiliation, to support pragmatic policy outcomes.

Ovintiv participates in public policy development with federal, provincial, state and local governments in the U.S. and Canada to support effective policies governing responsible energy development in North America. To that end, we use a multifaceted approach that includes:

- Directly lobbying and educating various government entities on issues impacting our business
- Actively participating in education and advocacy efforts by trade associations

- Giving corporate political contributions in compliance with all applicable laws and regulations
- Supporting the Ovintiv USA Inc. Political Action Committee (OVV PAC)

Ovintiv maintains policies, governance processes and Board oversight to help ensure our lobbying and political activities align with our values, corporate strategy and applicable laws and regulations. This report deals primarily with U.S. domestic policy activity and is not intended to cover Canadian activities, which adhere to jurisdictional requirements. Further information about Ovintiv's governance strategy can be found in our Sustainability Report.

Ovintiv's lobbying and political activities are consistent with our business objectives and public policy positions, and these activities are not predicated on the personal views of Ovintiv's management, employees, or board of directors.

U.S. Lobbying

In 2025, Ovintiv lobbied officials at the federal level and state level in Oklahoma, Texas, and Wyoming. Our U.S. Government Relations team guides our lobbying activities and manages our third-party lobbyists. As required by law in the applicable jurisdiction, Ovintiv files quarterly, semi-annual, and annual reports that describe issues lobbied and the amount spent on lobbying activity. Such reports are publicly available utilizing the respective links in the table. Ovintiv will issue this report on an annual basis.

<u>Federal</u>	\$880,000
<u>Texas</u>	\$120,558
<u>Oklahoma</u>	\$66,782
<u>Wyoming</u>	\$9,000
Total	\$1,076,340

Trade Associations

Ovintiv actively participates in the policy development and advocacy work of our trade associations. Trade associations represent a broad range of members and perspectives, and engage in policy matters affecting different industries as a whole rather than on behalf or in the name of an individual member. While policy positions may not always align with our views, we participate constructively in discussions and governance processes to influence outcomes. Our Board annually reviews our participation in trade associations.

Political Contributions

Ovintiv periodically provides corporate funds for political activities to support candidates, ballot measures and public education campaigns. We make funding decisions to advance our corporate goals and use our Political Activities Policy to guide those decisions. We make corporate political contributions in strict compliance with applicable laws and only after both the President & Chief Executive Officer and the Executive Vice-President, Commercial and Legal Affairs approve them. Our Board reviews the contributions annually.

Direct Contribution to Candidates and Parties

Direct corporate contributions to candidates, political parties or party committees are allowed in some jurisdictions in the U.S. In 2025, Ovintiv did not give corporate funds to any candidates, political parties or party committees.

527 Contributions

Ovintiv supports corporate contributions to tax-exempt organizations in the U.S., including entities organized under section 527 of the Internal Revenue Code. Such organizations may make independent expenditures which are publicly disclosed on federal, state, and local public databases, though Ovintiv’s contributions to such organizations are not earmarked for specific direct support or opposition to a campaign. Ovintiv itself did not make independent political expenditures made in direct support of or opposition to a campaign.
